# Monitoring Vs. Evaluation

---

- Systematic, ongoing
  - During programme implementation
  - Tracking of activities and progress
  - According to Business Plan
  - For short term corrective action
  - Accountability for implementation
  - Contributes to evaluation
  - Conducted by insiders
    - ***Are we doing things right?***
- Systematic, periodic
  - During and after programme implementation
  - Judgment of merit, value or worth of a programme/project
  - Compared to evaluation criteria (relevance, effectiveness, impact)
  - For decision-making about future programmes
  - Accountability for results
  - For office & organizational learning
  - Conducted by impartial outsiders
    - ***Did we do the rights things?***

# Monitoring

---

- ☞ **Track progress towards the agreed results** in the Business Plan, Ministry Corporate Plan, NSDP....
- ☞ Checks if **assumptions made and risks identified** at the design stage are still valid or need to be reviewed
- ☞ Allows DoCC/NABs and implementing partners to make **mid-term review** as an integral part of programme management.

# And Why Do We Need It?

---

DoCC/Nabs is responsible, with partners, to monitor achievement of results

- ☞ Regular and systematic **assessment of progress**
- ☞ Continued review of **partners' capacity development needs**
- ☞ Improve **results-based reporting** on achievements
- ☞ Strengthen **teamwork and ownership** of the Department among implementing partners
- ☞ Feeds into **evaluation and real-time**, evidence-based decision making

# What is Evaluation?

---

- **Systematic, impartial assessment**
- **External**, separated from programme management
- Determines whether results made a **worthwhile contribution** to national development priorities
  - Criteria: **relevance, efficiency, effectiveness, impact, sustainability**
- **3 key functions:**
  - Programme improvement
  - Accountability
  - Organisational learning

# And why do we need to do it?

---

## ☞ Whether we are Doing the Right Things

- Relevance/rationale/justification
- Client satisfaction

## ☞ Whether we are Doing it Right

- Effectiveness/coherence
- Efficiency: optimizing resources
- Sustainability
- Impact

## ☞ Whether there are Better Ways of Doing it

- Alternatives
- Good practices
- Lessons learned
- Improved positioning to influence next development planning framework

# M&E Questions

## Monitoring questions

- What is being done?
- By whom?
- Target population?
- When?
- How much?
- How often?
- Additional outputs?
- Resources used? (Staff, funds, materials, etc.)

## Evaluation Questions?

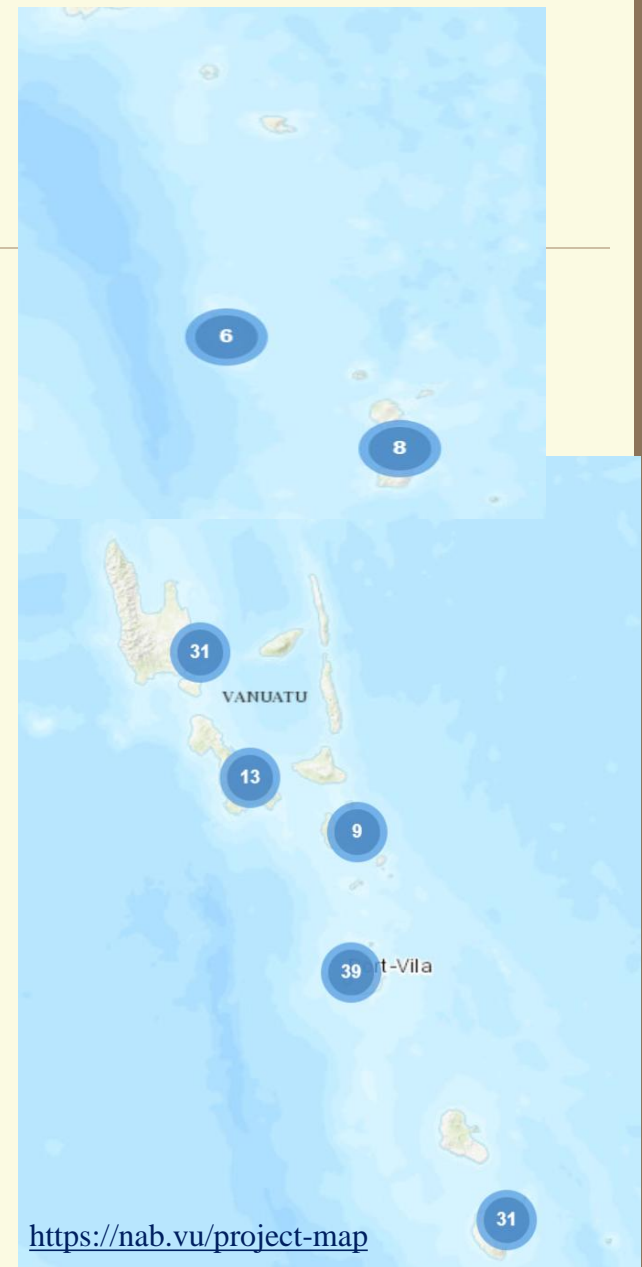

- Is the content of the implementation or the activity being delivered as planned?
- Does the content of the activity reflect the expected standards?
- Have the implementation achieved the expected results?

# M&E System: Tools

- Results Matrix
- M&E Plan
- Reliable data systems
- Single Progress Report per Month cycle
- Quarterly-SMR-Annual Review [*and report*]
  - **Input/Process (Monitoring)**
  - **Outcome / Impact (Evaluation)**
